SUMMARY

Full-stack web developer transitioning to backend engineering, with experience in using AWS for data collection and MySQL for database management. Skilled in Python and JavaScript, with a strong foundation in backend frameworks like Express and Mongoose. Known for effectively managing high-pressure scenarios and delivering timely solutions. Eager to leverage technical expertise to enhance backend systems and drive project success.

TECHNICAL SKILLS

- **Languages**: English, Japanese
- **Programming Languages**: HTML, Javascript, CSS, Python
- **Databases**: MySQL, MongoDB, GraphQL
- **Applications**: Insomnia, Robo 3T, Node, Git
- **Frameworks**: JQuery, React, Express, Mongoose, Sequelize

PROJECTS

My Trip Journal

- A online journaling platform for documenting travels, fully integrated with MVC
- Tasked with creating the Models and connecting the Express Routes with mySQL
- Javascript | CSS | HandleBars | Express | Node | Pexels API

Zodiac Horoscope

- This web app allows a user to enter date of birth and have a custom horoscope for Western Zodiac
- Took an active leading position during the development, responsible for API configuration and Local storage functions
- Bootstrap | Geocoding API | Astrology API

EXPERIENCE

VLI-EV   **2024 - Present**
BMS Technician   *San Diego, CA*

- Collected data from BSUs using AWS and stored it in MySQL databases, then visualized the data using JavaScript and CSS to improve data accessibility
- Traveled overseas and to local sites to install and test BMS, ensuring systems were operational and met client specifications
- Managed supply and tracked invoices to ensure timely procurement and payment processing, reducing delays in project timelines

Harmony 2B1 Restaurant   **2022 - 2024**
Server/Food-Runner   *San Diego, CA*

- Communicated with 50+ staff members the needs of 400+ guests while maintaining a pleasant eating environment for the clients.
- Provided service and ensured the clients comfort and needs

EDUCATION

University of California
Full Stack Web Development

- **Achievements:** Bootcamp Completion
- **Coursework:** HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js, ReactJS
